30) The subjects for the study of which the two scholarships may be awarded, have to be settled. The Director of Industries & Commerce & the Chief Engineer have not sent up their proposals, in spite of a reminder.

Cancg)

17/8

31) The Chief Engineer has since suggested the award of a scholarship for the study of Architecture. We have sufficient materials before us to close the subject. The University has recommended the grant of a scholarship for Mathematical Physics and have specially recommended Mr.M.L.Srinivasiengar for it as having marked aptitude and ability for the subject. This may be one of the subjects for which one of the scholarships may be awarded. The next subject suggested by almost all the officers concerned is Bio-Chemistry

H. Z.

Bio-chemistry. We have not been able to do much scientific work in connection with Spike disease as we could not get a Bio-chemist. There are many other questions in connection with which a Bio-chemist will be useful. The other scholarship may be awarded for Bio-chemistry.

12) The Dewan in his Minute dated the 28th July 1926 has suggested Banking as one of the subjects. Except the late Mr.R.Subba Rao we have not as yet trained any candidate in the practical side of Banking. Both Mr.V.L.D'Souza, Assistant Professor of Economics, Maharaja's College, and Mr.Loganatha Mudaliar, Accounts Probationer who have taken the B.Com of which Banking is one of the main subjects have not done any practical work. As the balance at the credit of the Damodara Doss scholarship is Rs.26,000 we may award another additional scholarship. In choosing a candidate it is desirable to secure one who has some previous knowledge of the subject so that he may get a more practical than a theoretical training. As we are likely to launch out into the scheme of Land Mortgage Banks and the needs of the State require men trained in Banking we should take this opportunity to train some men. So one of the scholarshps may be awarded for Banking. Messrs Coutts & Co are our Bankers. They are subsidiary to the second largest Bank in England. We should make use of their good offices to arrange to give the

Serial No

candidate selected as throughly practical a training as possible. The matter may perhaps be considered at the next meeting of Council

1542 25/8.

B 24/8/26

Vice Chancellor Dean

33) I think it is desirable to select subject the study of which is likely to be of immediate practical use to us. The foremost problem requiring early attention is the improvement of Education with a view to give it a strong vocational bent. I would, for this reason, support the proposal of the Inspector-General that one of the scholarships may be given for studying the organization of primary education and especially its correlation with rural social econom in selected countries like Denmark and Japan. I understand that the former country is ahead of all ~~Continental~~ European countries in ~~this respect~~ Agriculture and Agricultural Education.

34) The prevention of spike-disease is another problem of tne greatest importance and a competent candidate may be deputed for studying it.

Vice Chancellor 25/8/26

OFFICE OF THE SECOND SECRETARY OF COUNCIL. 27 AUG. 1926 No. 1590

NOTE— Contn. Sheet

Extract from the Proceedings of the 782nd *meeting of the Council of His Highness the Maharaja, held at Bangalore on the* 9th Septr. *1926*

68. Subject- (Clause xxi of the Schedule)

Selection of subjects for the Damodar Das scholarships during the year 1926-27.

OPINION OF THE COUNCIL.

One of the scholarships may be awarded for the study of Pharmacology and Materia Medica including Bio-Chemistry, the other for the study of the Organization of Primary Education and especially its correlation with Rural Social Economy in selected countries viz., Denmark and Japan. The period of the first scholarship will be fixed at 2 years and of the second at one year. The Heads of Departments concerned will be requested to submit recommendations for the selection of a suitable officer from the Department.

Mirza M. Ismail
Dewan.

Final Note by the Second Member of Council

15

Subject:—

Award of Damodar Das Foreign Scholarships during the year 1926-27.

T.

X

Under the order dated 25th May 1920, two Damodar Das Scholarships are to be awarded each year from four-fifths of the proceeds of the Damodar Das Charities Fund. Proposals were accordingly invited from Heads of Departments for a list of subjects for the study of which the scholarships may be awarded, and these were considered at a meeting of the Council held on 9th September 1926 when it was resolved as follows:

"One of the scholarships may be awarded for the study of Pharmacology and Materia Medica including Bio-Chemistry, the other for the study of the Organization of Primary Education and especially its correlation with Rural Social Economy in selected countries viz., Denmark and Japan. The period of the first scholarship will be fixed at two years, and of the second at one year. The Heads of Departments concerned will be requested to submit recommendations for the selection of a suitable officer from the Department."

The Resolution of the Council may be graciously approve

Cf. 3, para 8 of the Note. (Hard).

The amount at the credit of the fund is about Rs 26,000 after meeting all expenditure on present commitments, and this is more than sufficient to meet the cost of the two new scholarships proposed to be awarded this year.

72 Letter No PC 36-10 of 26/11/26 from the S.S furnishing information about the Courses of Studies to be pursued by Mr Ponnambalam and requesting that the same may be approved and orders communicated to him ~~by the middle of Dec 1927~~ very early.

(76) The Senior Surgeon states that Mr Ponnambalam will have to obtain a registrable qualification in Great Britain before he could register himself as a Student for higher Courses in any other line and that he will therefore be required to sit for the L.R.C.P.&S.(E) at the earliest opportunity available to him after reaching England, which will be not later than April 1927. He further states that Mr Ponnambalam will be asked to obtain ~~that~~ details of the Courses in Materia medica Pharmacology & Biochemistry from the Professors both in London and Edinburgh, facilities for which exist in these places and that the Scholarship may be tenable either

for studying in London or in Edinburgh whichever Univ. may offer better facilities Lrbd for orders.

By 30/11/26 — 1-12 — Mr Ponnambalam may, in the circumstances explained, be permitted to sit for the preliminary examination at the earliest opportunity but not later than April 1927 & to select the institution & the University for pursuing the course of studies prescribed in consultation with the High Commissioner. Necessary orders may issue in the Medical section.

(Chevppy) Dig 4/12

It is still not clear what the total amount of the course would be. To get a registrable qualification Mr Ponnambalam has to work till April 1927. Even assuming that he passes at the first chance — an experience with all the Officers we have so far sent does not justify us in thinking that Mr Ponnambalam will have better than many who have taken about 4 years for the M.R.C.P. M.R.C.S (London), he will scarcely have 4½ years for the special

subject whole of the funds to let the L.A.C. at the first chance — it will further reduce the funds for his special work. He covers the subjects he has to study, requires a good knowledge of Chemistry. We stand therefore to be prepared to extend the scholarship for at least 3 years. There will be no use in his going to Vienna which is only noted for its surgery and allied subjects. It is a pity that the Senior Surgeon is not able to settle the course from here and expects his Paramount Chief to do it

who has been granted a Damodar Das Scholarship.

The S.S. says that Mr. Rama Rao has been working in the Mental Hospital for the last 17 months and has picked up the details of the working of the institution.

Mr. Rama Rao is however quite a junior officer. In fact he he is officiating as Asst. Surgeon against the vacancy caused by the promotion of Dr. Vardiengar. This a point for consideration if a mere Senior officer, should be posted for the place

alone CONFIDENTIAL.

CHIEF SECRETARIAT
31 JUL 1926
EDUCATION BRANCH

From

B. Mahomed Usmon Esq. L.M.S.,

Senior Surgeon with the Government of

His Highness the Maharaja of Mysore, Bangalore.

To

The Secretary to the Government of His Highness

the Maharaja of Mysore, Medial & Agricultural Departments,

Bangalore.

Sir,

I have the honor to request that one of the Damodardass Free Foreign Scholarships available this year may kindly be given to a member of the Medical Department, viz., Assistant Surgeon Mr-A.M. Ponnambalam, B.A.,L.M.S, for higher studies in Pharmacology and Materia Medica (including Bio-chemistry).

The urgency of having a medical officer specialised in these subjects "in the interests of the Medical College" was brought to the notice of Government by the Vice Chancellor in his capacity of Extra Member about January last (vide D.O.No.G.5438-Med.25-25, date 28th January 1926) and my opinion was asked as to how far these subjects could be provided for on the return of the officers already deputed to England. A copy of my reply (D.O. letter) No. C.1498-3, dated 18th February 1926, on the subject is enclosed for ready reference.

File got from the Branch & put up 3-8-7 + 9.

As recommended therein I request that Assistant Surgeon Mr. A.M.Ponnambalam may kindly be deputed to England this year with a Free Foreign Scholarship for higher studies in Pharmacology and Materia Medica (including Bio-Chemistry).

I have the honor to be

Sir,

Your most obedient servant

Mhmou

Senior Surgeon.

Confidential.

Letter(D. O) No. C. 1498-3, dated 18th February 1926 from the Senior Surgeon in Mysore to the Undersecretary to Government, Bangalore.

With reference to your D. O. letter No. G. 5438-Med. 45-25, dated 28th January 1926, enquiring whether the subjects referred to in the Extra Member's Minute could be adequately provided for in the Medical College on the return of the men already in England, I write to inform you that, as observed in the Minute, Messrs. C. Krishnaswami Rao and P. Parthasarathi Chetty have studied Pathology and Bacteriology during their medical training in England and the latter has also passed the D. T. M. (Diploma in Tropical Medicine). There is also Mr. Mascarenhas, Health Officer, Bangalore, who has obtained the D.T.M.

There are three medical officers now in England and all of them are under-Graduates. Two (Messrs.T.Seshachalam and B.G.Sambasivan) are preparing for the F.R.C.S. and one (Mr. P.R.Subba Rao) for the Diploma in Ophthalmic Medicine and Surgery. Hence other officers will have to be sent out for specialising in Pharmacology, Materia Medica (including Bio-chemistry). There are no Chemistry Graduates in the Department at present. Of the Physical Science Graduates, who have studied Chemistry as a subsidiary subject, two viz., Mr. B. Krishnamurthy Rao and Mr. A. M. Ponnambalam are willing to take up higher studies in Pharmacology and Materia Medica in England,. But Mr. Krishnamurthi Rao is more than 45 years old and having spent much of his time in the mofussil, must now be out of touch with his Science subjects. I would therefore recommend the deputation of Mr. Ponnambalam, who is only 34 years old, and being all along in Bangalore, could be said to have kept himself informed of the advances in Science. His application for being selected to go to England this year, has been submitted with my letter No.C.1498, where in he has already signified his willingness to take up higher studies in Pharmacology. He has been an Examiner in Physics and Chemistry in the Medical College.

CHIEF SECRETARIAT
11. AUG. 1926
EDUCATION BRANCH

Dear Sir,

I hear it is the intention of the Government of Mysore to offer some scholarships this year out of the "Damodar Dosa Fund". I wish to submit the following for the information of the Government.

When I was in London during the British Empire Exhibition, I had an occasion to meet the Director of the Imperial Institute, South Kensington. During the course of conversation with him I mooted the subject of one or two Mysore students being allowed to work in the Imperial Institute Laboratories. The Director informed me that he saw no difficulty in permitting a couple of Mysore students to work in the Institute Laboratories, provided they had the requisite amount of preliminary training. Copies of the letter which I addressed to the Director of the Institute on the subject and his reply thereto are enclosed for information.

The idea I had in my mind when I talked over the subject with the Director of the Institute was the possibility of conducting some preliminary investigations at least in London at the Institute Laboratories on 'Sandal Spike'. This requires a Bio-Chemist and before the gentleman can work at the Institute Laboratories, he ought to have a proper amount of training in one of the Universities of England. I would submit that if there is any Mysore student in London, who has got the requisite training in Chemistry (London M.Sc., Ph.D., or D.Sc.)

and if the student is willing to take up this work of investigation o 'Sandal Spike', it ought to be possible to arrange for his work at th Institute Laboratories. The Government of Mysore can take up the ma directly with the Imperial Institute of London quotin the correspond copies of which are enclosed herewith. If, on the other hand, the Government should direct that I might write to the Institute authoriti once more to know if the promise made in 1924 holds good at the presen time, I shall be pleased to address a letter to the Institute.

Yours sincerely,

S Bailey

P.G. D'Souza, Esq., B.A., B.L.,
Chief Secretary to the
Government of Mysore,
Bangalore.

Government Soap Factory, Bangalore.

IMPERIAL INSTITUTE

South Kensington,
London, S. W.
22nd October 1924.

No. 4783/24.

Dear Sir,

In reply to your demo-official letter of 15th October, I am afr that the arrangement which you have sketched out would not be practical We could not undertake to train students, as we have not the necessary staff to do so without interfering with other work. I fear that the preliminary training which you mention would not be sufficient to enab the students to stand alone, as they would have very little knowledge branches of work carried on here, and they would therefore need an amo of supervision which we could not devote to them.

The question of giving facilities for a scientific worker, who already a thoroughly experienced man, to carry out some specific inves tion at the Institute would be a different matter. This has been don on one or two occasions in the past and I think this would be possible in the case of Mysore, but it would be absolutely necessary for the wo to be one who was capable of carrying on by himself, with only general assistance from the Institute.

Yours very truly,

(Sd) I.F. Lidderdale.

Indian Pavilion,

Demi Official. 15th October 1924.

J.L. Lidderdale, Esq.,
The Director,
The Imperial Institute
London, S. W. 7.

Dear Sir,

It has occurred to many of us that it will be a very good thin arrangements could be made to have one or two Mysore Students trained for a period of one or two years in the laboratories of the Imperial Institute. It will be possible to depute for this purpose students who have had a very thorough preliminary training in Chemistry so that they can, to a certain extent, stand on their own legs while working in the Institute Laboratories The idea is that the students so deputed, while gaining experience in your laboratories, should not be a burden to the Director of the laboratories. It is quite possible to arrange to send only those students who have had a couple of years good training at one of the English Universities before they are asked to go and work in your Laboratory.

May I be permitted to remind you of the informal discussion I had with you yesterday morning when you were good enough to see me at the Institute. I shall be very much obliged to you if you can kindly let me have your opinion in the matter. If you are agreeable to the general principles of the suggestion you will be helping me a great deal to work up this idea after I go back to India.

Yours sincerely,

(Sd) S.G. Sastry,

Chief Secretary to the Government of
His Highness the Maharaja of Mysore.

SIR.

With reference to your letter No. L.646-52/Edn.20-26-10 dated the 2nd instant requesting me to furnish a list of the subjects for the study of which Damodar Doss Free Foreign scholarships may be awarded during the current year with reference to the requirements of the Education Department, I have the honor to suggest that a scholarship might be awarded for one of the following objects:-

1. To obtain the M.Ed. Degree of London or Leeds. (The want of men with a high degree of Education and a broad outlook is very keenly felt in the Education Department. The only officer who procured this degree has been transferred to the University).

2. To study the organisation of Primary Education and especially its correlation with rural social economy in selected countries like Denmark, Japan and the United States.

I have the honor to be,
Sir,
Your most obedient servant,

26. NOV. 1926
EDUCATION

Sir,

With reference to your letter No. E. 2570/Edn. 20-26-67, dated 15th November 1926, I have the honour to forward herewith a copy of Mr. Ponnambalam's letter, dated 23rd November 1926, giving information on the courses of studies to be pursued by him and to state as follows:-

Preliminary training. Mr. Ponnambalam will have to obtain a registrable qualifiction in Great Britain, before he could register himself as a student for higher courses in any other line, as the other officers, (Messrs. Seshachalam and P.R.Subba Rao) who went to England before, had to do. He will therefore be required to sit for the L.R.C.P. & S.(E) at the earliest opportunity available to him after reaching England, which will be not later than April 1927.

Details of higher study. AS has already been determined, he will undertake higher studies in Materia Medica, Pharmacology and Bio-Chemistry. As definite details of the courses are not obtainable here at present, Mr. Ponnambalam will be ~~required~~ asked to obtain the details from the Professors concerned, both in London and at Edinburgh both of which places offer facilities for the study of these subjects. and submit the same soon after ~~arriving~~ arrival in England. This may be approved and also the scholarship may be tenabl either for studying in London or in Edinburgh, whichever University may offer better facilities.

The question of permiting Mr. Ponnambalam to follow up his studies in Great Britain, by a three or six months' practical work in Vienna, may be reserved for consideration after obtaining reports of his progress in Great Britain in suffficient time before the actua termination of his studies in Great Britain.

Orders may kindly be communicated very early, as the Officer will have to start by the middle of December 1926 to be in England early in January.

I have the honour to be,
Sir,
Your most obedient servant,

Senior Surgeon.

72

Letter, dated 23rd November 1926, from Mr. M. Ponnambalam, Resident Medical Officer, Minto Ophthalmic Hospital, to the Senior Surgeon in Mysore.

With reference to your Memo. No.G.C.36-8, dated the 20th November 1926, I have the honour to state that, in common with most scholars deputed to England, I have to obtain a registrable qualification which I shall do as soon as I reach Lond. As regards the details of the courses to be undergone by me, I regret that no literature is available here from which I could elicit authentic information. I therefore request that I may be permitted to submit the details from England after personally interviewing the Professors concerned. Meanatime, I beg to state, that I intend to study either at London or at Edinburgh, whichever University offers the better facilites for study, and to follow up the training received in Great Britain by a six months' course in Vienna. I solicit that this may be approved.

In conclusion, I beg to add, that I shall lose no time after reaching England, either in sitting for the preliminary examination or in choosing the University and pursing the specialisation in the subjects prescribed by Government.

intend sailing for England in the third week of December

PROCEEDINGS OF THE GOVERNMENT OF

HIS HIGHNESS THE MAHARAJA OF MYSORE.

R E A D.-

1. Government Order No. E.2288-95/Edn.20-26 56, dated the 28th October 1926 sanctioning the award of a Damodar Dass Free Foreign Scholarship tenable for 2 years, to Mr. A. M. Ponnambulam, - B.A., L. M & S., Assistant Surgeon, for higher studies in Pharmacology and Materia Medica, including Bio-Chemistry, and requesting the Senior Surgeon to submit, for the approval of Government a programme of the courses of studies to be pursued by the officer.

2. Letter No. G.C.36-10, dated the 26th November 1926 from the Senior Surgeon in Mysore on the same subject.

ORDER No. G 6611-4

Bangalore, dated 14th December 19

The Senior Surgeon reports that Mr. Ponnambulam has to sit for the L.R.C.P & S. (E), not later than April 1927 to obtain a registerable qualification in Great Britain, that thereafter he ~~might~~ may undertake higher studies in Pharmocology Materia Medica and Bio-Chemistry. He proposes that, as definite details of the courses of the studies in these subjects are not available at present, Mr. Ponnambulam would be asked to obtain and communicate details of the courses of study after consulting the Professors concerned at London and Edinburgh. ~~The Senior Surgeon~~ He also suggests that the scholarship may be made tenable either at London or Edinburgh, whichever University -

EB 11 (6) 14/12

offers better facilities.

2. Government are pleased to approve generally of the Senior Surgeon's proposals, subject to revision after fuller information is obtained. Mr. Ponnambulam should be directed to leave India sufficient time to enable him to sit for the preliminary examination soon after arrival in England so that he may begin his special courses of study immediately after the result of this examination is announced.
